SYCYVE - HULL MADELINE

You need only look at a field of sunlit daisies or the elegance of a single rosebud to know why flowers have always been a favorite subject of artists. This book will show you how 24 water color painters capture their subjects' brilliant colors, subtle shadings, graceful shapes and delicate textures. Assembled from some of the best teaching available, this comprehensive, step-by-step instruction will help you create your own, breathtaking watercolor gardens.

Kiss Me Again, the sequel to Rachel Vail's beloved contemporary teen romance If We Kiss, follows Charlie (Charlotte) Collins as she struggles with her feelings for her longtime crush Kevin Lazarus after their parents marry and he becomes her stepbrother. It was complicated enough when their parents were only dating and Kevin was going out with Charlie's best friend, Tess. Now, living under one roof, Charlie and Kevin are crossing paths and crossing lines, sneaking around at night and then sitting down to breakfast together as a family. It feels so crazy—exciting, confusing, impossible, and romantic. It can't last, not like this, but if anybody discovers their secret, everything could explode. . . . Praised for her wit and realism, award-winning author Rachel Vail delivers a poignant tale of first love and powerful kisses, at long last answering the question of what happens when a crush so off-limits it has to be fantasy suddenly becomes very real.

This is a new release of the original 1925 edition.

Essential Mathematics for Economics and Business is established as one of the leading introductory textbooks on mathematics for students of business and economics. Combining a user-friendly approach to mathematics with practical applications to the subjects, the text provides students with a clear and comprehensible guide to mathematics. The fundamental mathematical concepts are explained in a simple and accessible style, using a wide selection of worked examples, progress exercises and real-world applications. New to this Edition Fully updated text with revised worked examples and updated material on Excel and Powerpoint New exercises in mathematics and its applications to give further clarity and practice opportunities Fully updated online material including animations and a new test bank The fourth edition is supported by a companion website at www.wiley.com/college/bradley, which contains: Animations of selected worked examples providing students with a new way of understanding the problems Access to the Maple T.A. test bank, which features over 500 algorithmic questions Further learning material, applications, exercises and solutions. Problems in context studies, which present the mathematics in a business or economics framework. Updated PowerPoint slides, Excel problems and solutions. "The text is aimed at providing an introductory-level exposition of mathematical methods for economics and business students. In terms of level, pace, complexity of examples and user-friendly style the text is excellent - it genuinely recognises and meets the needs of students with minimal maths background." —Colin Glass, Emeritus Professor, University of Ulster "One of the major strengths of this book is the range of exercises in both drill and applications. Also the 'worked examples' are excellent; they provide examples of the use of mathematics to realistic problems and are easy to follow." —Donal Hurley, formerly of University College Cork "The most comprehensive reader in this topic yet, this book is an essential aid to the avid economist who loathes mathematics!" —Amazon.co.uk

There are people in this world who are Nobody. No one sees them. No one notices them. They live

their lives under the radar, forgotten as soon as you turn away. That's why they make the perfect assassins. The Institute finds these people when they're young and takes them away for training. But an untrained Nobody is a threat to their organization. And threats must be eliminated. Claire has been invisible her whole life, missed by the Institute's monitoring. But now they've ID'ed her and have sent Nix to remove her. Yet the moment Nix lays eyes on her, he can't make the hit. It's as if Claire and Nix are the only people in the world for each other. And they are—because no one else can really see them.

Birth to Big School is designed to support the Certificate III in Early Childhood Education and Care in a holistic and integrated way while addressing the relevant units of the Training Package, and mapping is available to link content to units. The text emphasises the importance of knowing the traditional domains of development and links them to the Early Years Learning Framework (EYLF) and the National Quality Standards (NQS) by using down-to-earth practical examples. Questions enable students to check their understanding of the content and provide a reference point to the NQS. Premium online teaching and learning tools are available on the MindTap platform. For ease of use and practicality Straightforward Second Edition is structured to provide one lesson per double-page spread (A/B/C/D), lasting around 90 minutes. All lessons are interlinked to promote better and more memorable learning, but there is the flexibility to pick out certain key sections to focus on certain language points.

Let's face it--some people are harder to love than others. This 4-session Bible study kit encourages women to look to the unconditional love they have experienced in their relationships with God while extending love to others. This kit includes five Bible study journals, one leader guide, and two DVDs with teaching videos from Beth on the different types of people--those who are a joy to love, those who are difficult to love, and those who are humanly impossible to love. We will never be able to love others well until we have been loved well, and only God can give us the love we desperately need. Features: Biblically-rooted and gospel-centered content Interactive teaching videos (approximately 45 minutes per session) Leader guide with questions and discussion starters for small groups Five Bible study journals, one leader guide, and two DVDs Promotional materials including posters and invitation cards available online for free downloads Benefits: Learn how to love all types of people--those who are a joy to love as well as those who are more difficult to love Root your identity in God's unconditional love Increase your effectiveness as a Christian Challenge yourself in the discipline of daily Bible study Video Sessions: Session 1: In session 1, Beth shares that we must allow God to minister His love to us and that we will never learn to love well without letting Him love us well. (50:00) Session 2: In session 2, Beth teaches from the Bible how we are to love Testy (someone who is difficult to love). She encourages us to use times with difficult people to let God love on us because God won't "give through us" what we don't let Him "give to us." (38:00) Session 3: In session 3, Beth continues to help us understand how to love Testy (who is difficult to love) and introduces Foe (who is impossible to love unless God empowers us). (43:00) Session 4: In session 4, Beth addresses what someone who is married to Testy (who is difficult to love) can do. She discusses our biblical mandate to plug into what God is doing across the globe and not just in our personal worlds. (50:00)
