A faithful reproduction of the 1970 Floyd Clymer publication of the official Honda Factory Workshop Manual specific to the 1962-1969 n10 50cc Sport Cub series of motorcycles. This manual includes all of the data that you would expect from a factory publication for the repair and overhaul of all major and minor mechanical and electrical components. It also includes a comprehensive troubleshooting section plus tables of technical data, tolerances and fits making it an invaluable resource for collectors and restorers of these classic Honda motorcycles. There are 55 illustrations and each procedure is explained in a step-by-step method using an appropriate illustration. The translation from Japanese to English is, at times, a little quirky but the illustrations make up for any difficulty in understanding what needs to be done! There are separate sections that deal with the repair and overhaul procedures for the engine, transmission, wheels and brakes, front forks, frame and carburetor, plus a detailed electrical service section. This is a - must have - reference for any Honda enthusiast and would certainly assist in helping any potential purchaser better understand the inner workings prior to purchasing one of these classic motorcycles. Out-of-print and unavailable for many years, this book is highly sought after on the secondary market and we are pleased to be able to offer this reproduction as a service to all Honda enthusiasts worldwide.

The aim of this manual is to help readers get the best from their vehicle. It provides information on routine maintenance and servicing and the tasks are described and photographed in a step-by-step sequence so that even a novice can do the work.

172 pages, and more than 140 illustrations and charts, size 8.25 x 10.75 inches. Owners of Norton Commando motorcycles are subjected to considerable confusion surrounding the selection of an appropriate workshop manual from the multitude of originals and reprints that have recently flooded the on-line marketplace. Many of the reprints found on internet websites are from 'bedroom sellers' at enticingly low prices by individuals that really have no idea what they are selling. Many are nothing more than poor quality comb-bound photocopies that are scanned and printed complete with greasy pages and thumbprints and, as such, are deceptively described as 'pre-owned'. In addition, they are often advertised for the incorrect series and/or model years of motorcycles. The Norton Commando model range is especially subjected to incorrect identification by these 'bedroom sellers' and you are encouraged to read the paragraph below to help identify the correct manual for your model. During the 1968 to 1978 Commando model run there were 4 different manuals published by the factory: The original 52 page 750cc manual (part number 06-3062) is applicable to the 1968 to 1970 models ONLY that were fitted with the external rev-counter drive and/or the Atlas style exhaust (refer to ISBN 9781588502421). This original manual was followed by part number 06-3419 which covers the 1970 to 1973 750cc models ONLY. The next, and most comprehensive manual, part number 06-5146, was published in 1973 and the 850cc data was added making this manual applicable to the entire range of 750cc & 850cc models from 1970 to 1975. Finally, with the introduction of the electric start, left side gear change, rear disc brake Mark 3 models in 1975, a separate manual part number 00-4224 was published which is specific to the 1975 to 1978 MKIII 850cc series from engine no. 325001 & frame no. F125001. We are pleased to offer this reproduction of the Factory Workshop Manual 06-5146 to owners of the 1970 through 1975 models and we hope that the explanation above removes any doubt regarding which manual is correct for a particular series of Norton Commando model. Models and model years covered in this manual are: Interstate: 745cc 1972-1973 & 828cc 1973-1975 Roadster: 745cc 1970-1973 & 828cc 1973-1975 Hi-rider: 745cc 1971-1973 & 828cc 1973-1975 Interpol: 745cc 1970-1973 & 828cc 1973-1975 Fastback: 745cc 1970-1973 Fastback LR (Long Range): 745cc 1971-1972 S Type: (Scrambler) 745cc 1970 SS Type (Street Scrambler): 745cc 1970-1971 IMPORTANT: Owners of 1968-1970 750cc Commando models are directed to our workshop manual ISBN 9781588502421 and owners of the later MKIII models would require our 1975-1978 manual ISBN 9781588502445. THE CLASSIC BOOK THAT HAS INSPIRED MILLIONS A penetrating examination of how we live and how to live better Few books transform a generation and then establish themselves as touchstones for the generations that follow. Zen and the Art of Motorcycle Maintenance is one such book. This modern epic of a man's search for meaning became an instant bestseller on publication in 1974, acclaimed as one of the most exciting books in the history of American letters. It continues to inspire millions. A narration of a summer motorcycle trip undertaken by a father and his son, Zen and the Art of Motorcycle Maintenance becomes a personal and philosophical odyssey into fundamental questions on how to live. The narrator's relationship with his son leads to a powerful self-reckoning; the craft of motorcycle maintenance leads to an austere beautiful process for reconciling science, religion, and humanism. Resonant with the confusions of existence, this classic is a touching and transcendent book of life. This new edition contains an interview with Pirsig and letters and documents detailing how this extraordinary book came to be.
