Launched in 1945 and commissioned two years later, submarine HMS Alliance was built for service with the Royal Navy in the Far East. Alliance had a long and distinguished career of more than 28 years that took her all over the world. Today, Alliance is the centrepiece at the Royal Navy Submarine Museum, Gosport, where the submarine experience is brought to life by tours around the boat. Former submariner and historian Peter Goodwin gives Alliance the Haynes Manual treatment, examining in detail her construction and restoration, and describing what it was like to live, work and go to war in a submarine.

A unique look at the development of the Land Rover, this is the story of the simple four-wheel drive vehicle born out of post-war austerity that became a global byword for toughness and rugged style. Launched in 1948, the Land Rover owed its low-key existence to shoestring British ingenuity and—literally—odds and ends left over from World War II. Rover thought it could keep its factory ticking over as the company's post-war fortunes slowly revived. They also thought that farmers might appreciate it as a handy cross between a pick-up and a tractor. But it was soon obvious that the company had created, in the Land Rover, a world-beating product. Giles Chapman tells the story of how Land Rovers have tamed the planet's toughest terrain with their unstoppable off-road capability. It also charts how the Land Rover legend allowed the marque to gradually expand its range with the Range Rover, Discovery, Freelander, and the latest Range Rover Evoque. They're all cars as familiar in cities and suburbs as they are at home in the countryside. Land Rover has been controversial, its fortunes tied to Britain's economic ups and downs. Today it's on a roll, leading a renaissance in British design and manufacturing, yet the continued presence of the Defender helps keep the Land Rover Story absolutely genuine.

The car world is full of fascinating characters, but few have a story to tell quite as remarkable and inspirational as Tom Hartley. Walking out of school at the age of 11, unable to read or write, Hartley set up his own business buying and selling cars. From that moment, he defied logic and ripped up the rule book on his way to the top. Today he runs one of the most successful independent family run performance and luxury car businesses in the world. He has built up an unrivalled reputation as "The Dealmaker." Tom has been at the top for over 40 years, survived and thrived through four recessions, and overcome three life threatening illnesses. In his own brutally honest words, Hartley tells his gripping story of a boy from a traditional Romany family who swapped the classroom for the cut-throat world of Glasgow's car auctions, buying and selling his first car at the age of 12. Having decided to drive himself around illegally, he was only 15 when he had his first car crash, and they don't come more spectacular than writing off a Ferrari Dino - nothing has ever been normal in the world of Tom Hartley! Hartley had made his first million by the age of 17, but soon suffered major setbacks as his business went bust, and he found himself at risk of losing his sight without major surgery. Hartley started all over again, living in a mobile home with his wife and working from the back of a car. He had gone from hero to zero, but his burning desire to be the best saw him climb his way back to the top. His ability to clinch deals in some of the most bizarre places has become legendary, like buying a car in a sauna, while stuck in a traffic jam on a motorway, and even in a swimming pool! Family has played a key part in the Tom Hartley story, his wife has been at his side all the way, and his two sons have followed closely in their father's footsteps. Indeed Tom's belief in family is one of the inspiring messages that comes through. Hartley's inspirational story is about the unshakable belief in his own abilities, from a precocious schoolboy who had a dream, and then through sheer hard work and a burning desire to make the dream come true. This is not just a book for car enthusiasts but for anyone who has dared to dream. It's a story

that will inspire and motivate, and proves you can make the wildest dream come true if you want it badly enough. Tom's remarkable story is written with the collaboration of journalist Ken Gibson, for 24 years, award-winning Motoring Editor of The Sun newspaper.
