### 03UKI2 - ANDREA KIDD

---

A glorious, gorgeous volume. Ash analyzes the life and work of Burne-Jones (1833-1898), a leading Pre-Raphaelite painter and pivotal figure in late 19th-century British art, and presents a stunning selection of his most enchanting paintings in a large format and high quality that would be suitable for framing if it weren't for the substantial informative commentary opposing each colorplate. 10.5x14" Annotation copyright by Book News, Inc., Portland, OR

This volume continues and amplifies a series of conversations initiated in 1990 at the conference, "Attending to Women in Early Modern England," sponsored by the University of Maryland's Center for Renaissance and Baroque Studies on the College Park campus. The volume celebrates the work of the almost 400 scholars who contributed - as plenary speakers, workshop leaders, and participants - to "Attending to Early Modern Women," held in April 1994, once again at the University of Maryland at College Park.

Never, in all her twenty years of life, had Star Berkley seen the likes of Sir Edward. He was so damned arrogant, so damned fashionable, and so damned insolent -- and he was the most handsome man she had ever come across! Sir Edward, for his part, could do without the pert country airs of a chit like Miss Berkley. She was impish, plain-spoken, and obviously not his sort, which was just as well, for it seemed she had stolen the heart of his closest friend. Then Sir Edward stumbled onto a most sordid secret: the Berkleys' estate teetered on ruination, and brother and sister were being brutally blackmailed by a vile den of thieves. Sir Edward meant to save them, if Star would allow him, and he was a determined man, determined that she would allow him ... everything.

Vols. 227-230, no. 2 include: Stuff and nonsense, v. 5-6, no. 8, Jan. 1929-Aug. 1930.

Marking the centenary of female suffrage, this definitive history charts women's fight for the vote through the lives of those who took part, in a timely celebration of an extraordinary struggle An Observer Pick of 2018 A Telegraph Book of 2018 A New Statesman Book of 2018 Between the death of Queen Victoria and the outbreak of the First World War, while the patriarchs of the Liberal and Tory parties vied for supremacy in parliament, the campaign for women's suffrage was fought with great flair and imagination in the public arena. Led by Emmeline Pankhurst and her daughters Christabel

and Sylvia, the suffragettes and their actions would come to define protest movements for generations to come. From their marches on Parliament and 10 Downing Street, to the selling of their paper, Votes for Women, through to the more militant activities of the Women's Social and Political Union, whose slogan 'Deeds Not Words!' resided over bombed pillar-boxes, acts of arson and the slashing of great works of art, the women who participated in the movement endured police brutality, assault, imprisonment and force-feeding, all in the relentless pursuit of one goal: the right to vote. A hundred years on, Diane Atkinson celebrates the lives of the women who answered the call to 'Rise Up'; a richly diverse group that spanned the divides of class and country, women of all ages who were determined to fight for what had been so long denied. Actresses to mill-workers, teachers to doctors, seamstresses to scientists, clerks, boot-makers and sweated workers, Irish, Welsh, Scottish and English; a wealth of women's lives are brought together for the first time, in this meticulously researched, vividly rendered and truly defining biography of a movement.

Burne-Jones, the Pre-Raphaelite painter and leader of the Aesthetic Movement is celebrated in this biographical, art and reference title that reproduces many of his works. Born in Birmingham, the son of a craftsman, Burne-Jones showed precocious ability at school. At Oxford University he met William Morris where they established a mutual interest in art. Their first important influence was that of one of the founding fathers of Pre-Raphaelitism, Dante Gabriel Rossetti, with whom in 1857 they painted murals at the Oxford Union. After Oxford his painting career developed and he rapidly established his position as the leader of the Aesthetic Movement. Burne-Jones also worked for Morris's firm, supplying designs for stained glass, tapestries, tiles and other products, including his own illustrations for the celebrated Kelmscott Chaucer.

This 1858 work, reissued here with its 1860 sequel, sought to promote Arctic knowledge and the efforts to find Franklin.

In December of 1814, American forces led by Major General Andrew Jackson moved into the city of New Orleans. For the next six weeks, Jackson's ragtag troops of militiamen, free blacks, Indians, and pirates furiously defended the city against Britain's elite army, led by Lieutenant General Sir Edward Pakenham. In the bloody confrontation of the two armies, the American underdog army decisively defeated Sir Edward Pakenham's British troops. The Generals tells the dramatic story of the battle between Andrew Jackson and Sir Edward Pakenham for the "booty and beauty" of New Orleans in the winter of 1814—1815. The Battle of New Orleans was the last battle in the War of 1812, which cost Pakenham his life and propelled Andrew Jackson into the national prominence that would eventually lead to his presidency. The Generals provides a detailed and intimate look at both the personal and professional lives of Jackson and Pakenham, demonstrating how their paths twisted and turned until they inevitably met each other on the battlefield outside of New Orleans. Benton Rain

Patterson leads readers through the captivating tale of a central battle in American military history and subsequently brings the biographies of these two great generals into full light.

The Privy Council is a centuries-old institution - yet, for an entity with such extensive influence over Britain's history, we know relatively little about it. What exactly does it do? To whom is it accountable? Just how much power does it hold over us? Some say it has no power at all, although you might not agree if you'd been sentenced to death in a former British overseas territory that still used the Judicial Committee of the Privy Council as its court of appeal; or if you were a lecturer having a row with your college, where the University Chancellor was a member of the royal family. Or, indeed, if you were a Prime Minister trying to establish a Royal Charter to control the press. Traditionally an advisory body to the sovereign, the Privy Council's chequered past is full of scandals and secrecy, plots and counterplots - and while it may no longer have the authority to command a beheading, its reach continues to extend into both parliamentary and public life. In *By Royal Appointment*, David Rogers examines it all, taking us on a fascinating, anecdote-filled odyssey through the history of one of England's oldest and most secretive government bodies.
