Religion is not a museum piece but a vibrant force in the lives of many people around the world. Living Religions is a sympathetic approach to what is living and significant in the world's major religious traditions and in various new movements that are arising. This book provides a clear and straightforward account of the development, doctrines, and practices of the major faiths followed today.

Completely revised, expanded, and updated to reflect two decades of new research, this classic book on stress by the man who formulated the entire theoretical concept is unquestionably the definitive general book on the subject. Defined as the rate of wear and tear caused by life, stress is a new concept of mental and physical illness. Dr. Selye here explains how to overcome the harmful effects of stress and how to use stress to your own advantage. He explores both biochemical and environmental facets of stress, stress and interpersonal relations, and offers readers a better understanding of their own bodies. This is also a dependable personal guide that tells you how to combat both physical and mental stress of everyday life, and how your bodily changes can help you adapt to

a wide variety of situations. Unquestionably one of the great pioneers of medicine, Dr. Hans Selye, with his famous and revolutionary concept of stress, opened countless new avenues of medical treatment.

Liner Notes for the Revolution offers a startling new perspective on Black women musicians from Bessie Smith to Beyoncé. Informed by the overlooked contributions of women who wrote about the blues, rock, and pop, Daphne A. Brooks argues that acclaimed entertainers have also been radical intellectuals, challenging the culture industry to catch up.

A NEW YORK TIMES CRITICS' TOP BOOK OF THE YEAR • One of our most brilliant biographers takes on one of our greatest living playwrights, drawing on a wealth of new materials and on many conversations with him. "An extraordinary record of a vital and evolving artistic life, replete with textured illuminations of the plays and their performances, and shaped by the arc of Stoppard's exhilarating engagement with the world around him, and of his eventual awakening to his own past." —Harper's Tom Stoppard is a towering and beloved literary figure. Known for his dizzying narrative inventiveness and intense attention to language, he deftly deploys art, science, history, politics, and philosophy in works that span a remarkable spectrum of literary genres: theater, radio, film, TV, journalism, and fiction. His most acclaimed creations—*Rosencrantz and Guildenstern are Dead*, *The Real Thing*, *Arcadia*, *The Coast of Utopia*, *Shakespeare in Love*—remain as fresh and moving as when they entranced their first audiences. Born in Czechoslovakia, Stoppard escaped the Nazis with his mother and spent his early years in Singapore and India before arriving in England at age eight. Skipping university, he embarked on a brilliant career, becoming close friends over the years with an astonishing array of writers, actors, directors, musicians, and political figures, from Peter O'Toole, Harold Pinter, and Stephen Spielberg to Mick Jagger and Václav Havel. Hav-

ing long described himself as a "bounced Czech," Stoppard only learned late in life of his mother's Jewish family and of the relatives he lost to the Holocaust. Lee's absorbing biography seamlessly weaves Stoppard's life and work together into a vivid, insightful, and always riveting portrait of a remarkable man.

Concepts of Biology is designed for the single-semester introduction to biology course for non-science majors, which for many students is their only college-level science course. As such, this course represents an important opportunity for students to develop the necessary knowledge, tools, and skills to make informed decisions as they continue with their lives. Rather than being mired down with facts and vocabulary, the typical non-science major student needs information presented in a way that is easy to read and understand. Even more importantly, the content should be meaningful. Students do much better when they understand why biology is relevant to their everyday lives. For these reasons, Concepts of Biology is grounded on an evolutionary basis and includes exciting features that highlight careers in the biological sciences and everyday applications of the concepts at hand. We also strive to show the interconnectedness of topics within this extremely broad discipline. In order to meet the needs of today's instructors and students, we maintain the overall organization and coverage found in most syllabi for this course. A strength of Concepts of Biology is that instructors can customize the book, adapting it to the approach that works best in their classroom. Concepts of Biology also includes an innovative art program that incorporates critical thinking and clicker questions to help students understand--and apply--key concepts.

NATIONAL BESTSELLER • A stunning "portrait of the enduring grace of friendship" (NPR) about the families we are born into, and those that we make for ourselves. A masterful depiction of love in the twen-

ty-first century. A NATIONAL BOOK AWARD FINALIST • A MAN BOOKER PRIZE FINALIST • WINNER OF THE KIRKUS PRIZE A Little Life follows four college classmates—broke, adrift, and buoyed only by their friendship and ambition—as they move to New York in search of fame and fortune. While their relationships, which are tinged by addiction, success, and pride, deepen over the decades, the men are held together by their devotion to the brilliant, enigmatic Jude, a man scarred by an unspeakable childhood trauma. A hymn to brotherly bonds and a masterful depiction of love in the twenty-first century, Hanya Yanagihara's stunning novel is about the families we are born into, and those that we make for ourselves. Look for Hanya Yanagihara's new novel, *To Paradise*, coming in January 2022.

Alice Keppel, the married lover of Queen Victoria's eldest son and great-grandmother to Camilla Parker-Bowles, was a key figure in Edwardian society. Hers was the acceptable face of adultery. Discretion was her hallmark. It was her art to be the king's mistress and yet to laud the Royal Family and the institution of marriage. Formidable and manipulative, her attentions to the king brought her wealth, power, and status. Her daughter Violet Trefusis had a long tempestuous affair with the author and aristocrat Vita Sackville-West, during which Vita left her husband and two sons to travel abroad with Violet. It was a liaison that threatened the fabric of Violet's social world, and her passion and recalcitrance in pursuit of it pitted her against her mother and society. From memoirs, diaries, and letters, Diana Souhami portrays this fascinating and intense mother/daughter relationship in *Mrs. Keppel and Her Daughter*. Her story of these women, their lovers, and their lovers' mothers, highlights Edwardian - and contemporary - duplicity and double standards and goes to the heart of questions about sexual freedoms.

The book *Lifhack* calls "The Bible of business and personal productivity." "A completely revised and updated edition of the blockbuster bestseller from 'the personal productivity guru'"—Fast Company Since it was first published almost fifteen years ago, David Allen's *Getting Things Done* has become one of the most influential business books of its era, and the ultimate book on personal organization. "GTD" is now shorthand for an entire way of approaching professional and personal tasks, and has spawned an entire culture of websites, organizational tools, seminars, and offshoots. Allen has rewritten the book from start to finish, tweaking his classic

text with important perspectives on the new workplace, and adding material that will make the book fresh and relevant for years to come. This new edition of *Getting Things Done* will be welcomed not only by its hundreds of thousands of existing fans but also by a whole new generation eager to adopt its proven principles.

Covers the New York State syllabus for biology and includes topic summaries, review questions and answers, and two practice exams.

"Includes the rediscovered part four"--Cover.

The puppet creates delight and fear. It may evoke the innocent play of childhood, or become a tool of ritual magic, able to negotiate with ghosts and gods. Puppets can be creepy things, secretive, inanimate while also full of spirit, alive with gesture and voice. In this eloquent book, Kenneth Gross contemplates the fascination of these unsettling objects—objects that are also actors and images of life. The poetry of the puppet is central here, whether in its blunt grotesquery or symbolic simplicity, and always in its talent for metamorphosis. On a meditative journey to seek the idiosyncratic shapes of puppets on stage, Gross looks at the anarchic Punch and Judy show, the sacred shadow theater of Bali, and experimental theaters in Europe and the United States, where puppets enact everything from Baroque opera and Shakespearean tragedy to Beckettian farce. Throughout, he interweaves accounts of the myriad faces of the puppet in literature—Collodi's cruel, wooden Pinocchio, puppetlike characters in Kafka and Dickens, Rilke's puppet-angels, the dark puppeteering of Philip Roth's *Micky Sabbath*—as well as in the work of artists Joseph Cornell and Paul Klee. The puppet emerges here as a hungry creature, seducer and destroyer, demon and clown. It is a test of our experience of things, of the human and inhuman. A book about reseeing what we know, or what we think we know, *Puppet* evokes the startling power of puppets as mirrors of the uncanny in life and art.

This book shows teachers and other human service professionals working in school settings how to employ non-averse, behavior analysis principles in class-

rooms and other school settings. Marked by its clear writing and multitude of real-classroom examples, this book is appropriate for undergraduate and graduate courses in teacher education, special education, school psychology, and school counseling. *Behavior Analysis for Effective Teaching* makes a perfect text for one of the five required courses for the Credentialing Exam of the Behavior Analysis Certification Board (BACB). Outstanding features include: • A classroom focus that seamlessly integrates behavior management with effective classroom instruction. • Up-to-date research covering topics such as tag teaching, precision teaching, verbal behavior, autism, and computer-aided instruction. • Pedagogical strategies including in-chapter quizzes and problem-solving exercises. • A companion website featuring instructor test banks, illustrative videos, and further resources.

In this final in a four-volume series on the church fathers, Christopher Hall follows the contours of ethical living in conversation with leading voices of the early church. The topics range from entertainment to wealth and poverty. Exploring these ancient and deeply Christian perspectives illuminates forgotten corners in our own lives.

Jesus Christ: God's Revelation to the World is the first in a three book series written for the beginning courses of the U.S. Bishops' Curriculum Framework. It provides a map for high school students to navigate the wonderful work of God--Father, Son, and Spirit--in forming a People, giving a Law, and preparing for the Messiah. The one-semester course is intended to give students a general knowledge and appreciation of Sacred Scripture while coming to encounter Jesus Christ.

This lab manual provides Skill Sheets and includes traditional lab exercises as well as inquiry-based lab activities.

A riveting, deeply personal account of history in the making—from the president who inspired us to believe in the power of democracy #1 NEW YORK TIMES BEST-SELLER • NAACP IMAGE AWARD NOMINEE • NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY THE NEW YORK TIMES BOOK REVIEW NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The Washington Post • Jennifer Szalai, The New York Times • NPR • The Guardian • Marie Claire In the stirring, highly anticipated first volume of his presidential memoirs, Barack Obama tells the story of his improbable odyssey from young man searching for his identity to leader of the free world, describing in strikingly personal detail both his political education and the landmark moments of

the first term of his historic presidency—a time of dramatic transformation and turmoil. Obama takes readers on a compelling journey from his earliest political aspirations to the pivotal Iowa caucus victory that demonstrated the power of grassroots activism to the watershed night of November 4, 2008, when he was elected 44th president of the United States, becoming the first African American to hold the nation's highest office. Reflecting on the presidency, he offers a unique and thoughtful exploration of both the awesome reach and the limits of presidential power, as well as singular insights into the dynamics of U.S. partisan politics and international diplomacy. Obama brings readers inside the Oval Office and the White House Situation Room, and to Moscow, Cairo, Beijing, and points beyond. We are privy to his thoughts as he assembles his cabinet, wrestles with a global financial crisis, takes the measure of Vladimir Putin, overcomes seemingly insurmountable odds to secure passage of the Affordable Care Act, clashes with generals about U.S. strategy in Afghanistan, tackles Wall Street reform, responds to the devastating Deepwater Horizon blowout, and authorizes Operation Neptune's Spear, which leads to the death of Osama bin Laden. *A Promised Land* is extraordinarily intimate and introspective—the story of one man's bet with history, the faith of a community organizer tested on the world stage. Obama is candid about the balancing act of running for office as a Black American, bearing the expectations of a generation buoyed by messages of "hope and change," and meeting the moral challenges of high-stakes decision-making. He is frank about the forces that opposed him at home and abroad, open about how living in the White House affected his wife and daughters, and unafraid to reveal self-doubt and disappointment. Yet he never wavers from his belief that inside the great, ongoing American experiment, progress is always possible. This beautifully written and powerful book captures Barack Obama's conviction that democracy is not a gift from on high but something founded on empathy and common understanding and built together, day by day.

A practice Test Booklet that contains 4 full length NYS Regents Living Environment. This booklet has fully explained Answers and Reference Tables. Used to prepare high school students for the New York State Regents Living Environment.

Using a consistent, logical, and step-by-step approach, *MEDICAL TERMINOLOGY: A LIVING LANGUAGE*, 5/e introduces students to the anatomy and physiology of body systems and the corresponding medi-

cal terms related to them. For each body system, broad coverage of anatomy, physiology, pathology, diagnostic procedures, treatment procedures, and pharmacology is provided. The author emphasizes both terms built from Latin and Greek word parts, and modern English terms, helping students develop a full working word part vocabulary they can use to interpret any new term. This edition contains many new terms, and has been reorganized for more efficient learning. To eliminate confusion, Word Building tables have been removed from each chapter and the terms have been distributed throughout the pathology, diagnostic procedure, and treatment procedure tables, where they are more immediately relevant to students.

Prentice Hall Biology utilizes a student-friendly approach that provides a powerful framework for connecting the key concepts of biology. New BIG IDEAs help all students focus on the most important concepts. Students explore concepts through engaging narrative, frequent use of analogies, familiar examples, and clear and instructional graphics. Now, with Success Tracker(tm) online, teachers can choose from a variety of diagnostic and benchmark tests to gauge student comprehension. Targeted remediation is available too! Whether using the text alone or in tandem with exceptional ancillaries and technology, teachers can meet the needs of every student at every learning level. With unparalleled reading support, resources to reach every student, and a proven research-based approach, authors Kenneth Miller and Joseph Levine continue to set the standard. Prentice Hall Biology delivers: Clear, accessible writing Up-to-date content A student friendly approach A powerful framework for connecting key concepts

How do otherwise considerate human beings do cruel things and still live in peace with themselves? Drawing on his agentic theory, Dr. Bandura provides a definitive exposition of the psychosocial mechanism by which people selectively disengage their moral self-sanctions from their harmful conduct. They do so by sanctifying their harmful behavior as serving worthy causes; they absolve themselves of blame for the harm they cause by displacement and diffusion of responsibility; they minimize or deny the harmful effects of their actions; and they dehumanize those they maltreat and blame them for bringing the suffering on themselves. Dr. Bandura's theory of moral disengagement is uniquely broad in scope. Theories of morality focus almost exclusively at the individual level. He insightfully extends the disengagement

of morality to the social-system level through which wide-spread inhumanities are perpetrated. In so doing, he offers enlightening new perspectives on some of the most provocative issues of our time, addressing: Moral disengagement in all aspects of the death penalty—from public policy debates, to jury decisions, to the processes of execution The social and moral justifications of major industries—including gun manufacturers, the entertainment industry, tobacco companies, and the world of "too big to fail" finance Moral disengagement in terrorism, and how terrorists rationalize the use of violence as a means of social change Climate change denial, and the strenuous efforts by some to dispute the overwhelming scientific consensus affirming the impact of human behavior on the environment "Al Bandura is the most cited individual in the history of psychology for the depth, breadth and originality of his ideas and writings. Now with his ground-breaking new contribution, *Moral Disengagement*, his reach extends not only to teachers and students but also to the general public --making them aware of everyday evils in many spheres of daily life that must be counteracted by mindful moral engagement." ----Phil Zimbardo, Ph.D. Author, *The Lucifer Effect*; President, The Heroic Imagination Project "The authoritative statement by the world's most-cited living psychologist, laying out his influential theory. Plunge into these fascinating historical and modern case studies of moral disengagement—morality tales for all time, illuminated by the psychology of how people do harm to themselves and others."-- Susan T. Fiske, Psychology and Public Affairs, Princeton University "If you have wondered why good people do bad things, and even terrible and horrible things, then this is the only book you ever will have to read." ----Robert J. Sternberg, Professor of Human Development, Cornell University "Dr. Albert Bandura is one of the great behavioral scientists of our time. His superb contributions include a deep analysis of human morality, its fundamental importance and the complexity of its development." ----David A. Hamburg, MD, Visiting Scholar, American Association for the Advancement of Science; DeWitt Wallace Distinguished Scholar, Weill Cornell Medical College; President Emeritus, Carnegie Corporation of New York

What's being widely regarded as "one of the most life changing books ever written" may be the simplest approach to achieving everything you've ever wanted, and faster than you ever thought possible. What if you could wake up tomorrow and any-or EVERY-area of your life was beginning to transform? What would you change?

The Miracle Morning is already transforming the lives of tens of thousands of people around the world by showing them how to wake up each day with more ENERGY, MOTIVATION, and FOCUS to take your life to the next level. It's been right here in front of us all along, but this book has finally brought it to life. Are you ready? The next chapter of YOUR life-the most extraordinary life you've ever imagined-is about to begin. It's time to WAKE UP to your full potential...

Biology for AP® courses covers the scope and sequence requirements of a typical two-semester Advanced Placement® biology course. The text provides comprehensive coverage of foundational research and core biology concepts through an evolutionary lens. Biology for AP® Courses was designed to meet and exceed the re-

quirements of the College Board's AP® Biology framework while allowing significant flexibility for instructors. Each section of the book includes an introduction based on the AP® curriculum and includes rich features that engage students in scientific practice and AP® test preparation; it also highlights careers and research opportunities in biological sciences.

From #1 Wall Street Journal and New York Times bestselling author Robert Dugoni. Sam Hill always saw the world through different eyes. Born with red pupils, he was called "Devil Boy" by his classmates; "God's will" is what his mother called his ocular albinism. Her words were of little comfort, but Sam persevered, buoyed by his mother's devout faith, his father's practical wisdom, and his two other misfit friends. Sam believed it was God who sent

Ernie Cantwell, the only African American kid in his class, to be the friend he so desperately needed. And that it was God's idea for Mickie Kennedy to storm into Our Lady of Mercy like a tornado, uprooting every rule Sam had been taught about boys and girls. Forty years later, Sam, a small-town eye doctor, is no longer certain anything was by design--especially not the tragedy that caused him to turn his back on his friends, his hometown, and the life he'd always known. Running from the pain, eyes closed, served little purpose. Now, as he looks back on his life, Sam embarks on a journey that will take him halfway around the world. This time, his eyes are wide open--bringing into clear view what changed him, defined him, and made him so afraid, until he can finally see what truly matters.
