Maybe in the wide-open country she can learn to breathe again. Happily married and owner of two successful boutiques, Jade longs to begin a family with her husband, Max. But when she discovers that Max has an illegitimate son—who he wants her to help raise—Jade's life is turned upside down. She flees to her childhood home, a rambling Iowa farmhouse, with enough room to breathe. There—while her mother's health grows fragile, and the tug of her first love grows stronger—Jade begins to question everything she thought she knew about family, love, and motherhood. In the wide-open landscape, Jade begins to see a future that doesn't rest on the power of her past, but in the goodness of God's tender mercies. "Exquisitely written, an achingly beautiful story about lost and found relationships that made me ponder my own. This story is not to be missed." —Susan May Warren, RITA award-winning, best-selling author of *Nightingale* "Hang on for an emotional ride as a woman who 'married into a Southern soap opera' learns to forgive and trust again." —Booklist

In the criminal community, the term "songbird" means snitch, rat-fink, or singing canary. It is a derogatory means of marking people who inform on unlawful offenders to the law enforcement authority. Many informants accept monetary recompense; many do not. They simply own such a strong sense of right versus wrong that they willingly aid the law enforcement community by imparting their information to the proper authorities. They risk extreme hardship in many incidences. However, these songbirds consider a clear conscience well worth the risk. This is a truthful account of two such songbirds.

In Lisa Samson's moving novel, the wife of a popular televangelist discovers a family secret that threatens to destroy her marriage and her husband's ministry.

A collection of experiences, advices and mixed emotions penned down by a boy in his ninetens who fought and won the battle of his life. The poems by the young boy are the manifestations of the thoughts which arose in his head in the duration of his days in the ICU; a time when he was fighting for his life.

With her wedding days away and only her faith to get her through the chaos, Jade Freedom Fitzgerald must contend with the sudden arrival of her hippie mother, who is seeking reconciliation before she succumbs to a deadly illness. Reprint.

"A beautifully crafted novel that sits at the intersection of race and class, that flags the frank truth of the life of migrant workers for whom a flight to freedom can become the most finely woven trap."—JODI PICOULT, #1 New York Times bestselling author of *The Book of Two Ways* From the prize-winning author of *The Beekeeper of Aleppo* comes *Songbirds*, a stunning novel about the disappearance of a Sri Lankan domestic worker and how the most vulnerable people find their voices. Living on the island of Cyprus, Nisha is far from her native Sri Lanka. Though she longs to return home, she knows that working as a "maid" for a wealthy widow is the only way to earn enough to support her daughter, left behind to be raised by relatives. Yiannis is a poacher, trapping the tiny protected songbirds that stop in Cyprus as they migrate each year from Africa to Europe and selling them on the illegal market. He dreams of finding a new way of life, and of marrying Nisha. But one night, Nisha makes dinner, an aromatic dahl curry, for the family who pays her: Petra and her daughter Aliki. Then, after she cleans the kitchen and tucks Aliki into bed, Nisha goes out on a mysterious errand, and vanishes. When the police refuse to pursue the case, Petra takes on the investigation herself, a path that leads her to Nisha's friends—other workers in the neighborhood—and to the darker side of a migrant's life, where impossible choices leave them vulnerable, captive, and worse. Inspired by the real-life disappearance of domestic workers in Cyprus, Christy Lefteri has crafted a poignant, deeply empathetic narrative of the human stories behind the headlines. With infinite tenderness and skill, *Songbirds* offers a triumphant story of the fight for truth and justice, and of women reclaiming their lost voices.

Garry Kilworth's first collection shows him to be one of the most original and enjoyable writers in the field. The thirteen stories in *The Songbirds of Pain* mix science fiction and fantasy, with a dash of unclassifiable strangeness. Kilworth is particularly adept at evoking colourful and exotic locales in distant parts of the world, as in 'The Dissemblers', a story set in the Arabian deserts, about a man resorting to bizarre self-torture in his attempts to see beyond the veil of death. 'Blind Windows' is an adventure set in the Far East, reminiscent of an updated Rider Haggard: a group of Westerners searching for some fabled crystals find their way into a hidden underground world. 'Scarlet Fever' is about an artist in a sterile future society who gives himself the disease in an attempt to stimulate creativity. And the titled story tells of a woman who undergoes a strange and painful series of treatments in order to achieve perfect beauty.

There is nothing wrong with being a hopeless romantic about life; you just have to find a balance. That way when things go terribly wrong, and they will, you can find the courage to move forward; even when you don't think you can.

USA Today bestseller *For five centuries, a witch's curse has bound the trolls to their city beneath the ruins of Forsaken Mountain—time enough for their nefarious magic to fade from human memory and into myth. But a prophecy has spoken of a union that will set the trolls free, and when Cécile de Troyes is taken beneath the mountain, she learns there is far more to the myth than she could have imagined. Cécile has only one thing on her mind after she is brought to Trollus: escape. But if she is to succeed, she must bide her time and find a way to outsmart the clever, fast, and inhumanly strong trolls that hold her captive. But while awaiting the perfect opportunity, Cécile unexpectedly falls for the enigmatic troll prince to whom she has been bonded and married. Their love gradually changes her perspective, opening her heart to new friends and opening her eyes to the hardships of the enslaved half-troll, half-human creatures of Trollus. As rebellion brews and the political games of Trollus escalate, Cécile becomes more than a trapped father's daughter. She becomes a princess, a witch, and the hope of a people—someone who has the power to change Trollus forever.*

Helens work has been widely shared on the world-wide web over the years, but she has always wanted to produce a book of her poetry, and this is the first edition. The title is inspired by her maiden name, Rainbow, hence the title *A Rainbow in Black and White*.

Introduces the phenomenon of bird song, explains how and why birds sing, describes how scientists learn about bird communication, and indicates the dangers to songbirds due to changes in their habitats.

A little blue songbird longs to sing like her sisters. But whenever she tries, she cannot get the tune right. Her mother encourages her to leave home and find a song that only she can sing. With courage and tenacity, she travels the world, seeking advice from a crane, an owl, and a mean-looking crow, and other birds, hoping they will lead her to her special song. Told in gentle, lyrical prose and with bright, beautiful watercolor illustrations, *The Blue Songbird* is an empowering story for kids of all shapes, sizes, and singing ability.

Wood thrush, Kentucky warbler, the Eastern kingbird-migratory songbirds are disappearing at a frightening rate. By some estimates, we may already have lost almost half of the songbirds that filled the skies only forty years ago. Renowned biologist Bridget Stutchbury convincingly argues that songbirds truly are the "canaries in the coal mine"-except the coal mine looks a lot like Earth and we are the hapless excavators. Following the birds on their six-thousand-mile migratory journey, Stutchbury leads us on an ecological field trip to explore firsthand the major threats to songbirds: pesticides, still a major concern decades after Rachel Carson first raised the alarm; the destruction of vital habitat, from the boreal forests of Canada to the diminishing continuous forests of the United States to the grasslands of Argentina; coffee plantations, which push birds out of their forest refuges so we can have our morning fix; the bright lights and structures in our cities, which prove a minefield for migrating birds; and global warming. We could well wake up in the near future and hear no songbirds singing. But we won't just be missing their cheery calls, we'll be missing a vital part of our ecosystem. Without songbirds, our forests would face uncontrolled insect infestations, and our trees, flowers, and gardens would lose a crucial element in their reproductive cycle. As Stutchbury shows,

saving songbirds means protecting our ecosystem and ultimately ourselves.

She's almost forgotten how to write the songs that made her famous... "Relationships are at the heart of women's fiction, and Herron could teach a master class on creating them." Chicklit Central From international bestseller Rachael Herron, comes a book too delightful to put down: Adele Darling has washed up in the sleepy gold-rush town her great-grandfather had given his name to, the town she'd left for good a long time ago. The saloon is a ruin, the business is broke and customers are scarce. Add into the mix Nate Houston - the handsome, guitar-playing bartender who had always believed he would be the next owner of the Golden Spike - and Adele has one potent cocktail on her hands. The best ways to attract melodic birds, with insight into their rapidly changing habits The American robin and northern cardinal are two of the best-loved songbirds, but newer backyard arrivals, like rose-breasted grosbeaks and scarlet tanagers, quickly captivate with their vivid colors and unique songs. Bird lovers will learn to attract new visitors by offering treats that songbirds like best, such as soft, easy-to-peck foods that closely mimic caterpillars, their top food preference. And planting just a few carefree perennials and shrubs can provide opportunities for cover and nesting. Sally Roth's Attracting Songbirds to Your Backyard draws on the latest science and 50 years of observation to reveal these fascinating details: • In the wee hours, it's the robins that sing first, followed by the babble of house wrens and the whistle of cardinals • Some birds learn birdsongs throughout their lives, while others stop learning once they can mimic their parents' song • It's Dad, not Mom, who teaches the young birds to sing Simple tips, ideas, and recipes, as well as an understanding of why songbirds are coming from the treetops into the backyard, will help any bird enthusiast create a songbird sanctuary.

'Tonight / I'll serenade you / With kisses / Modestly dressed...' In Rank Songbirds, Leon Rooke deploys his playful wit and slantwise perspective to explore the joys and the burdens, the hilarities and the surprises of life in its absurd, charming, tragic minutiae. These are poems that revel in foibles, saucy verbal sparring and the possibilities of artistic expression while ever mindful of the fallibility of humanity, its voracious appetites, its complicit silences, its convulsive politics. And though it may be that 'Those angels serenading us through / Hazardous night were rank songbirds chirping away / Mindless of hawks zooming overhead,' these poems remind us that today is not to be confused with last week's curse, that freedom is getting the high notes right and that, in a pinch, one might 'apply love's bandage to the shiftless heart / This minute pooling debris about your feet.'

With the publication of the landmark volumes *The Birds of South America: The Oscine Passerines* and *The Birds of South America: The Suboscine Passerines*, Robert S. Ridgely and Guy Tudor established themselves as the leading authorities on the songbirds of South America. Reviewers hailed the volumes as the essential reference works for professional ornithologists and avocational birders alike, and they remain the only volumes that provide full scientific coverage of the continent's passerines. Recognizing the need for a more compact guide that birders can take into the field, Ridgely and Tudor have now extracted and updated the essential identification information from *The Birds of South America* to create the *Field Guide to the Songbirds of South America*. This definitive guide is filled with indispensable features: 121 color plates that present Guy Tudor's magnificently detailed paintings of more than 1,500 species of songbirds, including more than 400 that were not illustrated in *BOSA* 160 additional color illustrations of subspecies and females Extensively updated color range maps for all of the species in the field guide, prepared by Robert S. Ridgely with technical assistance from Maria Allen and Terry Clarke, appear opposite the plates for each bird family Robert S. Ridgely's authoritative accounts of nearly 2,000 species that cover each bird's abundance, habitat, and range; elevational preference; taxonomic or nomenclatural changes; plumage description; general behavior and voice; and range beyond South America, if applicable

Songbirds of the West includes more than four dozen songbirds that occur within the western United States. The majority are found in America's western National Parks, especially in parks where the author worked for more than a quarter of a century. Big Bend National Park is where he encountered Black-capped and Gray Vireos, Vermilion Flycatchers, Curve-billed and Crissal Thrashers, Hepatic and Summer Tanagers, and Black-vented, Hooded and Scott's Orioles. Black-billed Magpies were encountered at Great Sand Dunes, Clark's Nutcrackers at Crater Lake, Cave Swallows at Carlsbad Caverns, Cactus Wrens at Saguaro, Phainopeplas at Organ Pipe, Steller's and Gray Jays at Yellowstone, Black-throated Gray Warblers at Mesa Verde, Townsend's Solitaires at Timpanogos Cave, and Canyon and Rock Wrens at Zion. Great Kiskadees, Green Jays, and Altamira Orioles were encountered in the Lower Rio Grande Valley of Texas. The discussion of each bird is based on the author's personal encounters. These range from casual observations to scientific studies which were undertaken in both the U.S. and Mexico; still others involved visits to the West Indies. The bird's life history, behavior and status are included.
