What's Your Angle is made up of two parts: The first part consists of the author's six step method that teaches the reader how to easily see canine angles. This unique method takes the reader through a step by step process to identify and mark each important point on the dog. This will help train the reader's eyes to see the angles. With practice, this process will become second nature, as will the ability to analyze canine structure at a glance. The second part of What's Your Angle explains what the angles mean and how they singularly and in combination, affect the way a dog moves, jumps, turns and accelerates. Whether you want to know more about structure before you start a search for your next dog, or just want to know more about the dog you have now, What's Your Angle will open your eyes to a whole new world of seeing structure for the performance dog.

Every dog owner knows that along with the joy can come the stress and frustration of behavioral problems, which are expensive to diagnose and treat. Enter Kim Brophrey, award-winning canine behavior consultant. Using cutting-edge research, Brophrey has developed a groundbreaking system that allows owners to

identify what their dog is struggling with, why, and how they can fix it. Brophrey's approach is unlike anything that has been published before and will give dog owners a new understanding of what motivates and affects their dog's behavior. Brophrey's innovative technique rethinks the way we categorize dogs, and distills information from over twenty scientific disciplines into four comprehensive elements: learning, environment, genetics, and self. With revolutionary tips for specific dog breeds, this book will change the life of every dog owner and lead to happier human-canine relationships.

As an unabashed dog lover, Alexandra Horowitz is naturally curious about what her dog thinks and what she knows. As a cognitive scientist she is intent on understanding the minds of animals who cannot say what they know or feel. This is a fresh look at the world of dogs -- from the dog's point of view. The book introduces the reader to the science of the dog -- their perceptual and cognitive Abilities -- and uses that introduction to draw a picture of what it might be like to be a dog. It answers questions no other dog book can -- such as: What is a dog's sense of time? Does she miss me? Want friends? Know when she's been bad? Horowitz's journey, and the insights she uncovered from studying her own dog, Pumpnickel, allowed her to understand her dog better, and appreciate her more through that understanding. The reader will be able to do the same with their own dog. This is not another dog training book. Instead, Inside of a Dog will allow dog owners to look at their pets' behaviour in a different, and revealing light, en-

abling them to understand their dogs and enjoy their relationship even more.

Recommended for mature age 13 and up. I've seen a lot in my thirteen years of life. I've run away and been rescued. I've had children and lost them. I've lived in cages and in beautiful homes. But these days, a lot of my thinking is done behind closed eyelids, as I just feel so old and tired all the time. Now, you're probably confused at this point because, in human years, thirteen isn't old at all; but in dog years, especially if you're a sheltie like me, that's ancient. So, when my human parents—the best people you could ever meet—started moping around the house, I knew something was up. For a few days, I tried to ignore it, but after another visit to the doctor, we all had to finally face the truth. I am dying. But the story I have to tell you isn't a sad one. You might say we dogs tend to view the world through rose-colored glasses. But really, we just see it for the wonderful place it is. Sure, there are difficult moments, but that's just it—they are momentary. The way I see it, every day we have a choice to love, laugh, and be grateful.

Patches is our favorite little dog with a big wet nose. In Patches' Awesome Day, Patches invites us to come along and share his day, reminding us the importance of smiling, laughter, playing, and friends. This rhyming little dog story will soon be a beloved children's classic and will have kids of all ages rolling on the floor with laughter. Helping Tales Publishers was started by James S. Martinez and Timothy T. Civick and is committed to making reading a positive impact on the world by helping those in need, one story at a time. In order to fulfill this mission, we donate a portion of the proceeds from each sale to select charities. Keep an eye out for more adventures from Patches and all his friends.

Gizmo has been my best friend since the day I was born - he's always been around. But now they're telling me he might not always be around which completely sucks. I'm determined that me and Gizmo will have lots more fun and adventures before he goes - I mean, he loves parties, deserves pampering, and needs a break by the seaside. And as for that old saying about how you

can't teach an old dog new tricks - it's true, you really can't! Gizmo's bucket list is up and running - unlike Gizmo who is totally lazy and demanding to be carried . . . All the laugh-out-loud humour you'd expect from a Ben Davis book but with added heart and poignancy . . . and a four-legged character you'll fall in love with!

Pebbles is a dog that thinks he is a frog. Pebbles finds love, acceptance and friendship from his slimy pals and proves he has what it takes to be a frog by saving Cuddle Pond.

GET TO KNOW YOUR DOG. Renowned expert dog trainer and best-selling author of Lucky Dog Lessons Brandon McMillan unpacks the unique and often misunderstood 15,000-year evolutionary history governing a dog's every move. Most dog owners know the truth—their dogs are totally incompatible with the modern world.

Instincts like herding, chasing, and protecting have no natural outlet and frequently result in chewing, barking, nipping, jumping, lunging, and worse. However, as McMillan argues in these pages, the solution isn't as simple as mastering "sit" and "stay." No matter what kind of dog you have, no matter how old or young or well trained or well-bred, your beloved companion is strongly influenced by his DNA. The result of these genetic distinctions shows up in every inch and action—from the size and shape of a dog's head (and the brain inside it) to the length and curve of his tail, from the texture of her fur to the webbing (or lack of webbing) between her toes. It's in their lung capacity, their tolerance for heat and cold, their appetites for food and exercise, and whether and how they bark. It goes beyond their structure and deep into their psychological profiles. Perhaps you're lucky enough to have a dog with more than a few breeds mixed in, which makes this information all the more crucial to know and understand. In The Story of Your Dog, McMillan breaks down why your dog acts the way it does, so you can train better and easier, with fewer missteps and miscommunications, and bond in ways you never thought possible. It is an invitation to get to know the sometimes frustrating but always incredible dog at the other end of the leash.

All dogs go to heaven ... unless they have unfinished business here on earth ... Surprised to find himself reborn as a rambunctious golden-haired puppy after a tragically short life as a stray mutt, Bailey's search for his new life's meaning leads him into the loving arms of 8-year-old Ethan. During their countless adventures Bailey joyously discovers how to be a good dog. But this new life as a beloved family pet is not the end of Bailey's journey. Reborn as a puppy yet again, Bailey wonders - will he ever find his purpose? Touching, insightful, and often laugh-out-loud funny, A Dog's Purpose is not only the story of a dog's many lives, but also a dog's-eye commentary on human relationships and the unbreakable bonds that hold us all together, man and man's best friend alike. The story teaches us that love never dies, that our true friends are always with us, and that every creature on Earth is born with a purpose.

When you look into those big, gorgeous puppy-dog eyes, it sometimes seems all too obvious what your dog is thinking - namely, I love you. But there's more to dogs than meets the eye, and after delving deep into pup psychology we can now reveal the real

thoughts behind those adorable faces. Find out what's going on behind those puppy-dog eyes when your pooch is desperately begging for food, why they insist on digging holes in the garden, and what they really think of your cutesy nicknames.

Is your special friend always waiting at the door for you with a wagging tail and an unconditional look of happiness? Is your favorite lap warmer always ready to keep you company on dark and stormy nights? No matter if your friend is furry, finned, feathered, or leathered, no doubt your pet plays an important role in your life and your family. In fact, your pet may be your family. But after the inevitable happens and you sob your last good-bye, will you see your pet again? In Heaven? Does your pet have a soul? Will your pet go to Heaven? This fun and light-hearted look at a seriously sad subject reveals many perspectives about Spot's stairway to Heaven, Fluffy's final resting place, and birds of Paradise. Will your pet rabbit rest in peace, or will your fish float forever in the septic tank? In addition to their own blend of passionate and compassionate diva dialogue, the four writers quote devoted pet owners, clergy, friends, family, and even those who just aren't "pet people." From the variety of perspectives and opinions, this is a heart-warming, tail-wagging conversation sure to keep you smiling from now until then...

What happens when Cooper, a newly adopted puppy, takes up residence in Henry's home? The little pooch sure is adorable, but who knew he had so much to learn! Love Me Gently is a kid's guide to man's best friend. It captures the everyday challenges of raising a pup through a child's eye. But who is teaching who? Henry may be coaching Cooper, but he is also discovering valuable lessons about responsibility, unconditional love, patience, and kindness along the way!

The choice of a dog is a very important moment in the life of each of us, it is the moment in which you commit yourself to take care of a living thing, a new "best friend", a confidant for the rest of your life! Have you decided that the right time has come? Well, congratulations! The time has come to figure out which dog is right for you. "What is the best dog breed for me? "An informative, well-written book on the evolution of all canids, including the wild types (wolves, coyotes, jackals, and dingoes)...Recommended."—Choice Of the world's dogs, fewer than two hundred million are pets, living with humans who provide food, shelter, squeaky toys, and fashionable sweaters. But roaming the planet are four times as many dogs who are their own masters—neighborhood dogs, dump dogs, mountain dogs. They are dogs, not companions, and these dogs, like pigeons or squirrels, are highly adapted scavengers who have evolved to fit particular niches in the vicinity of humans. This book present an eye-opening analysis of the evolution and adaptations of these unleashed dogs and what they can reveal about the species as a whole. Exploring the natural history of these animals, canine behavior experts Raymond and Lorna Coppingers explain how the village dogs of Vietnam, India, Africa, and Mexico are strikingly similar. These feral dogs, argue the Coppingers, are in fact the truly archetypal dogs, nearly uniform in size and shape and incredibly self-sufficient. Drawing on nearly five decades of research, they show how dogs actually domesticated themselves in order to become such efficient scavengers of human refuse. The Coppingers also examine the behavioral characteristics that enable dogs to live successfully and to reproduce, unconstrained by humans, in environments that we ordinarily do not think of as dog friendly. A fascinating exploration of what it actually means, genetically and behaviorally, to be a dog, What Is a Dog? is likely to change the way beagle or bulldog owners reflect on their four-legged friends. Cute Dogs is a picture book for children. It is ideal for developing early reading skills in children. Full color images of cute dogs along with rhyming text will keep young readers engaged. Simple words allow you to read along with your child. This is the first volume of the Picture Books For Kids series.

Handsome and kind-hearted Will Sullivan owns a pet shop in an idyllic seaside town. Business is good, and he's dating again for the first time since his divorce, but in the course of a single day, Will's whole life turns upside-down. A corporate giant threatens to destroy his business, his ex-wife decides to move back to town, and worst of all, he discovers a dead body. When Will's girlfriend is arrested as a suspect, it's up to Will, with the help of an adorably enthusiastic shelter dog, to uncover the identity of the killer, in a town where just about anyone could be a suspect.

#1 New York Times Bestseller In this pathbreaking guide, two of the world's most popular and trusted pet care advocates reveal new science to teach us how to delay aging and provide a long, happy, healthy life for our canine companions. Like their human counterparts, dogs have been getting sicker and dying prematurely over the past few decades. Why? Scientists are beginning to understand that the chronic diseases afflicting humans—cancer, obesity, diabetes, organ degeneration, and autoimmune disorders—also beset canines. As a result, our beloved companions are vexed

with preventable health problems throughout much of their lives and suffer shorter life spans. Because our pets can't make health and lifestyle decisions for themselves, it's up to pet parents to make smart, science-backed choices for lasting vitality and health. The *Forever Dog* gives us the practical, proven tools to protect our loyal four-legged companions. Rodney Habib and Karen Becker, DVM, globetrotted (pre-pandemic) to galvanize the best wisdom from top geneticists, microbiologists, and longevity researchers; they also interviewed people whose dogs have lived into their 20s and even 30s. The result is this unprecedented and comprehensive guide, filled with surprising information, invaluable advice, and inspiring stories about dogs and the people who love them. The *Forever Dog* prescriptive plan focuses on diet and nutrition, movement, environmental exposures, and stress reduction, and can be tailored to the genetic predisposition of particular breeds or mixes. The authors discuss various types of food—including what the commercial manufacturers don't want us to know—and offer recipes, easy solutions, and tips for making sure our dogs obtain the nutrients they need. Habib and Dr. Becker also explore how external factors we often don't think about can greatly affect a dog's overall health and wellbeing, from everyday insults to the body and its physiology, to the role our own lifestyles and our vets' choices play. Indeed, the health equation works both ways and can travel "up the leash." Medical breakthroughs have expanded our choices for canine health—if you know what they are. This definitive dog-care guide empowers us with the knowledge we need to make wise choices, and to keep our dogs healthy and happy for years to come.

"Dog lovers and neuroscientists should both read this important book." --Dr. Temple Grandin What is it like to be a dog? A bat? Or a dolphin? To find out, neuroscientist and bestselling author Gregory Berns and his team did something nobody had ever attempted: they trained dogs to go into an MRI scanner--completely awake--so they could figure out what they think and feel. And dogs were just the beginning. In *What It's Like to Be a Dog*, Berns takes us into the minds of wild animals: sea lions who can learn to dance, dolphins who can see with sound, and even the now extinct Tasmanian tiger. Berns's latest scientific breakthroughs prove definitively that animals have feelings very much like we do--a revelation that forces us to reconsider how we think about and treat animals. Written with insight, empathy, and humor, *What It's*

Like to Be a Dog is the new manifesto for animal liberation of the twenty-first century.

Meaning, joy, and treasures; some are fake, but others last forever. Find them in the simple heart of a good dog. They're stories about YOU and amazing answers.

>b>Despite being abandoned, I became the luckiest dog in the world! You don't need to speak dog to understand my inspiring story and learn about love, hope, trust, and care. My name is Bud, and this is my story. Since I don't have thumbs, I had to get help to write my true and exciting story because I wanted to share with children age ten and up why I think I am the luckiest dog in the world. Bud's story will warm your heart and hopefully awaken your senses to the "what-if," your dog could talk. What does your dog call you and what does your best friend (dog) think about life? This book is also for those who might wish for a dog and want to learn more about the process of adoption. Pet adoption is something that is dear and near to the author's heart, and she is happy to donate a portion of every sale to, "Pup and Cat Company," a local non-profit humane society.

'Stubbs, his hair is wiry Stubbs, his breath is fiery Stubbs can't read my diary He's smelly and he's dim Stubbs licks all our dishes Stubbs destroys my wishes And we can't go to Mauritius Just because of him' So wrote Violet Peck in her diary at the beginning of the summer holiday. But thanks to Stubbs, the Peck's spoiled rotten dog, Violet does go away for the summer... to a much stranger and scarier place than she could ever dream of. And she gets much closer to the family pet than any little girl could wish. With the headstrong Stubbs on one side and Harry and Hannah, her conniving cousins on the other, Violet is plunged into a world of shop-lifting, weird science, deadly secrets and belly button rings. And she ventures to a terrifying place that no one has ever been before... so close to home, yet so very far away.

A heartwarming story of a cute little puppy that due to a family hardship is taken to a local dog shelter. There he learns about his little pink nose that not only makes him different, but creates obstacles in his mind. When he is adopted by very loving parents, it changes his whole world. He shares many wonderful first experiences with his new parents and family until one day when one of his doggie friends tells Maxx a story that turns his world into one

of worry and desperation. Maxx learns that what he thought was an obstacle turns into one of the happiest days in his life.

The author describes how his life as an alcoholic spiraled out of control, to the point that his wife left him and his only chance at redemption was launching himself--and his unruly Bernese mountain dog, Hola--into the world of competitive dog training. Reprint. Having earned her official SAR (Search and Rescue) vest in Sierra Becomes a Search Dog, our hero is called upon to save the day once more.
